## Take Your Time

Take back your precious time with Apply4Me by saving an average of **18 minutes per job application** and doing what you want instead.

## Winning Careers

Experts work with other experts. Careers are about teamwork, because time is precious. Apply4Me is your new, dedicated, job applications team.

## Actually Easy – Really!

Unlike “Easy Apply” applications, Apply4Me really does move from tapping a button to receiving a confirmation - *it actually is easy.*

## Your Daily Updates

Each day, you'll receive an email confirming applications that were sent and received. Along with any responses from those companies.

## Company Contact

Companies receive your resume, application form, cover letter (optional), and contact details. So they can reach out to you personally.

## Good Reviews

The Apply4Me team completes and reviews applications – ending that that long trawl through errors made by resume parsing technologies.

## Big Numbers

1, 3 or 6-month subscribers can send up to 100 applications per month. 12-month members can send 1,200 annually with no monthly limits.

## Click-happy Outcomes

Because Apply4Me is so easy, you should remember that each company could contact you with interview requests or questions!

## Happy to Ignore

You may receive "Confirm email /password" emails from companies - and can ignore them! We'll create, confirm, and let you update later.

## Application Issues?

If any problem with an application arises, you'll be informed by the team that we couldn't send. Details and other options will be provided.

## Career Control

You can view all your applications and their status on your dedicated job applications page, so you have complete career control! a few easy clicks.

## Apply4Me – Chrome Extension

Apply on other jobs sites with your *Apply4Me* extension. Here's how:

1. Add your *Apply4Me* extension to your Chrome browser.
2. Click the Ladders icon at the top right of other job pages you visit.
3. Your application will be processed and recorded on your [Applied Jobs](#) page.

[Add to Chrome]

**86%**

of *Apply4Me* users said they'd recommend it to a friend\*

## Apply4Me – Q&A

### **What happens after I click the Apply4Me button for a job?**

[Dropdown]

A Ladders team member visits the company's site, clicks 'apply' on your chosen job, fills out the entire application and applies to the job on your behalf. You'll receive confirmations and all followup communications.

During the process, our team member looks for resume reading errors made by the company's application software, saving you hours on this mind-numbing task.

### **What's the difference between the 2 different post-application emails I receive?**

[Dropdown]

Ladders sends two emails. The first to confirm that we got your request, the second to confirm that our team has completed your application. "We're working on your application" = Ladders received your application request. "You've applied to..." = The company has received your application. That way, you're always up-to-date on the status of your Apply4Me job application.

### **When do I receive my Apply4Me confirmations?**

[Dropdown]

You choose how your confirmations are delivered. By visiting your account email settings, you can click an option for confirmation of each application, or an option to receive a daily update showing all your applications for the day.

### **Where can I see all the jobs that I've applied to?**

[Dropdown]

You can view all your applied jobs here: <https://www.theladders.com/applied>

### **How do I update my Apply4Me answers?**

[Dropdown]

You can update your answers here at any time: <https://www.theladders.com/apply-for-me>.

### **Can I use more than one resume for Apply4Me applications?**

[Dropdown]

Yes, your account allows up to five resumes to be uploaded. You can update them at any time: <https://www.theladders.com/my-resume?coverletter=true>. When you choose Apply4Me on your jobs page, you can use the drop down box at the right of the Apply4Me button to pick which resume you'd like to use.

### **Can I use a cover letter with Apply4Me applications?**

[Dropdown]

When you write or paste a cover letter to your Apply4Me or Resume page, click the "Company-name" and "Job-title" tags – which you'll see at the right of the text box – when the cursor is at the spots in which they should appear. The tags will appear in those spots. When you choose Apply4Me, the tags will be replaced by the company name and the job title of the job to which you're applying.

### **Is there a limit to how many applications I can send using Apply4Me?**

If you have a 1-month, 3-month or 6-month membership, you can use Apply4Me for 100 job applications each month. If you have a 12-month membership, there is no monthly limit, only a limit of 1,200 job applications annually.

### **What email should I use so that I can be contacted?**

[Dropdown]

We use your Ladders account email whenever possible; if there are potential difficulties we

assign a “pass-through” email that the Apply4Me team can also view. This helps us clear up any issues without slowing the application process for you. You can change pass-through emails later.

### **I’d like to review the application for a specific job, how do I do that?**

[Dropdown]

Using your account email, fill the “forgot password” or “change password” request. If there’s an issue, it could be that your assigned pass-through email was used. Your unique address can be found at: <https://www.theladders.com/apply-for-me>. Once you’ve changed the password, you can log in and proceed to see your application on the corporate jobs site. If you still experience issues, contact customer service at [help@theladders.com](mailto:help@theladders.com).

### **If a “pass-through” email was used, how do I change the email address to my own?**

[Dropdown]

After setting a new password (see above), you can also change the email address to your preferred email address.

### **Is Apply4Me automated?**

[Dropdown]

Apply4Me applications are completed by actual humans on Ladders’ Apply4Me team! Highly experienced in the job application process, they fill out job applications on your behalf and look for resume reading errors made by corporate jobs sites. They review each application to check that information is accurate, then make the submission for you.

While we hope to automate more of the process, humans do a much better job than computer systems at this time.

### **How are resume reading / parsing errors handled?**

[Dropdown]

When our team member uploads your resume, errors made by the company's resume reading software are searched out and fixed.

### **What information is used in my Apply4Me applications?**

[Dropdown]

Your resume, Apply4Me answers, and your account information, including your optional cover letter.

### **Is Apply4Me available for all jobs on Ladders?**

[Dropdown]

Apply4Me can be used to apply to all jobs on Ladders, with a few exceptions — about a dozen companies out of the 40,000+ on Ladders have processes that we are unable to complete on your behalf, in which case we disable the Apply4Me green button.

### **Can Apply4Me be used with any other jobs site(s)?**

[Dropdown]

Yes, you can add our Apply4Me Chrome extension from your Apply4Me page. In a few clicks, the extension is added to the top right of your Chrome browser. Although we can't control permissions for other sites, you can use it on jobs sites like Indeed, Glassdoor, ZipRecruiter, Monster, CareerBuilder and others.

### **Do I need to do anything after I click the Apply4Me button to complete my application?**

[Dropdown]

No, there's no additional step required on your part. You can use the time you saved to apply to more jobs, network your way into the jobs you've already applied to, or prepare for your interviews!
